ABOUT ME

Computer Science Undergraduate specializing in Full Stack Development. Passionate about building complete, user-friendly applications from the ground up. Experienced in connecting clean front-end interfaces with reliable databases, while integrating practical AI and machine learning features.

EDUCATION

2025 - Present
University of Westminster

BSc (Hons) Computer Science
Informatics Institute of Technology affiliated with University of Westminster, UK

2023 (2024)
Private Candidate

G.C.E Advanced Level - Commerce Stream

MAR - OCT 2021
ESOFT Metro Campus

Diploma in Information Technology - Pearson

PROJECTS

- **Smart Event Planner | AI/ML Developer**
  - Collaborated within a six-member team to architect and build a smart event management platform.
  - Developed a core recommendation engine utilizing Random Forest Classifiers and Regressors for precise event matching.
  - Optimized model performance, achieving a 2% accuracy boost through strategic feature engineering and hyperparameter fine-tuning.

- **Multi-User Blog Platform | PHP, MySQL, Bootstrap**
  - Built a responsive web platform supporting multiple users and centralized admin controls.
  - Designed and normalized a MySQL relational database to manage content and user roles.

- **Personal Task Manager | Python, Tkinter, JSON**
  - Engineered a desktop GUI application with full CRUD functionality.
  - Designed a persistent storage system using JSON to maintain user data across sessions.

- **Cross Math Puzzle App | Kotlin, Android Studio (In Development)**
  - Developing a logic-based mobile puzzle game focusing on UI responsiveness and mathematical algorithms.
  - Implementing custom game logic and state management to handle various difficulty levels.

CERTIFICATIONS

- Microsoft Certified: Azure AI Fundamentals
- LinkedIn Learning (Python)

SKILLS

- **Languages:** Python, Java, JavaScript, Kotlin, PHP, SQL
- **Web:** HTML5/CSS3, Bootstrap, MySQL
- **AI & ML:** Model Selection, Fine-tuning, Feature Engineering
- **Developer Tools:** Git, GitHub, Trello, Click Up, Android Studio
